BUILDER'S BUNGALOW HARDWARE

The Hardware on the front door is one of the principal features in exterior decorations of a house, and adds many times its cost to the selling value of your property. It is at the front door that you welcome your friends and bid them adieu. It is that which attracts their attention while waiting the answer to their summons, and unconsciously makes an impression as to the character and taste of those within.

We shall be glad to show you our little Catalog of ART HARDWARE, even if you do not want to buy now.

SMITH & GAETZ
The Hardware People.

Diamonds

Have been steadily advancing in price for some years back. Those who are posted in the present value of DIAMONDS are surprised at the value we give in our DIAMOND RINGS from \$18.00 to \$35.00. Take a look at some of them in our window; note the color, the brilliancy, and the size, and we think you will conclude that we not only buy them right, but sell them at a small margin.

See our 5 stone Diamond Hoop Rings at \$35.00

HOLDING DOWN THE LID

CONSERVATIVE MAJORITY OF 27 NOW PRACTICALLY ASSURED IN THE DOMINION

VOTE FOR MCGILLIVRAY AND CANADA FOR THE CANADIANS

THE BENNETT MEETING Almost Unanimous for McGillivray

It straws tell which way the wind blows, Monday night's meeting was overwhelmingly for McGillivray, and he is assured a big majority in Red Deer.

R. B. Bennett, K.C., of Calgary, delivered probably the finest oration ever heard in our town, and the meeting was with him from start to finish. For two hours and a half he held the audience spellbound, and at times, as he rose to flights of oratory, the audience cheered him to the echo. And that is not all (as he would say) he pounded home fact after fact until they were as clear as the noon day sun. He showed up the shams of the reciprocity past, and stated Canada was good enough for Canadians. He proved that British Columbia was our natural market, that the farmers of the west made \$1,000,000 a year by the duty at present on their stuff, which they would lose, as well as the market itself, if reciprocity was adopted. He showed up the attempts that had been made in the past to pass reciprocity and the way the people had turned them down. He felt the people of the Dominion would turn against the government on the 21st, and that the voice of the people was against reciprocity. He spoke of the thousands of leading Liberals who were composing the pact all over the country; men who were serving country before party; men who felt that this would be the thin edge of the wedge for absorption by the United States; men with strong minds and independent thoughts, who could not be persuaded to turn their backs on the splendid times we now have for the ills we know not of.

The hall was not half large enough to accommodate the crowd and hundreds were turned away. The chair was ably occupied by Dr. Collison, President of the Federal Conservative association of Red Deer, who made a few opening remarks in introducing the speaker.

Mr. Bennett said from all he could learn from every part of the Dominion he believed the government would be defeated on the 21st of September.

A Hot Time at Edwell

The U.F.A. meeting to discuss reciprocity, at Edwell, on Wednesday night last, was very exciting. There developed a very strong feeling by the members present against the pact, and a motion was brought in by James Marles, censuring the executive of the U.F.A. for dabbling in politics to the injury of the organization. The feeling ran so high, and there appeared so many in favor of the resolution, that the chairman refused to put the motion, and dismissed the meeting. He said if they wanted to discuss politics they could do so after the meeting. Some of those present contended it was a poor rule that wouldn't work both ways.

At the Lyric Theatre, Wednesday evening, Sept. 27th, "45 Minutes from Broadway" will remove the blues and all those disappointed effects of the election.

Ballot Box Outrage in Edmonton Men Swear They Can Open Boxes

The city has been agitated over exposures made by Mr. Griesbach, the Conservative candidate, that ballot boxes can be opened without any trouble.

So great is the number of these improper ballot boxes, says the Edmonton Journal, that have been seen and examined, and in some cases actually opened as they lay looked on station platforms while on their way to the various deputy returning officers, that political workers are staggered.

Perhaps the most dramatic and extraordinary scene of the present campaign occurred at Toileid on Saturday morning. Here there were a number of ballot boxes piled on the station platform exhibiting transhipment to various polling subdivisions in the Strathcona constituency. As is natural, a little crowd collected, and curiously began to examine the boxes. They had read in the Journal that Mr. Griesbach had stated that thirty ballot boxes had been constructed in this city in such a way that by cutting the wire that runs around the bottom of the cover, or rather the top of the box under the cover, it was possible to pull out this wire, and so lift up the lid without either touching the lock or removing the seal.

Some of those in the crowd began to examine the boxes more closely. They wondered how these boxes were made. They speculated as to whether it would be possible to open them. This on the face of it looked rather impossible, as they were locked, and were not supposed to be opened until election day.

But imagine the amazement of the crowd when one of the boxes was actually opened. Not by unlocking it, but simply by removing the wire at the back. Then it was a simple matter to lift up the lid, and several looked into the box and saw inside the ballots, instructions to returning officers, pencils and such other things as are sent to the deputy returning officers for use in the polls on election day.

The Liberals at once tried to stem the tide of indignation by issuing writs against Mr. Griesbach, but he countered by affidavits by men who made the boxes, and by those who had opened them, that the boxes could be opened without any trouble. And there the matter stands.

The ballot boxes of Alberta could, in our opinion, be opened at any time and the contents be changed without unlocking the box. A Mr. Kennedy, sworn, said: "Did you see any of the boxes opened, Mr. Kennedy?" was the next question. "Yes, I did, and there were a number of others saw one of them opened too. Of course they were locked, but it was a very easy matter to pull out the wire at the back of the box, and so release the hinges. It was then a very simple matter to open the lid. Inside we saw the ballots and several other things."

Who can vote for a party or government thus outraging the will of the people?

Vote for McGillivray and honest government.

GREAT ENTHUSIASM FOR MCGILLIVRAY AT EVARTS His Meeting a Big Success

The old adage that one tale is good till another is told, was evidently appreciated by the large, enthusiastic audience which listened with intense pleasure on Thursday evening at Everts whilst A. A. McGillivray proceeded to knock into the proverbial cocked hat the one-sided arguments brought forward by farmer Clark in his special pleading on the previous Tuesday. These, and the government's whole case for reciprocity, were drowned in a brilliant flood of common sense and logical oratory, which was a treat, or I may say an educational treat, to the inhabitants of the Medicine Valley, who, at great inconvenience to themselves, had assembled to study still further the great issue involved in the approaching election. The terrible earnestness, the respect he has for honest labor—fery and close to the subject the whole time—his wonderful ability to hold an audience which he did for two and a half hours spellbound, together with his diplomatic abilities, won for him not only their votes on the 21st, but the respect, best wishes and the admiration of every man, woman and child in the house; even the Socialist present seemed to be ready to bow the head and bend the joint between the leg and thigh. Mr. Isaacson, you say we have a good man. We know that alright, but are you, in the absence of a Socialist candidate, going to stand and look on? You, who know the conditions on the south side of the line; you, who has the long lists of trusts at your fingertips, such as steel trust, meat trust, sugar trust, hay and grain trust, and many others I could mention. I say, think for one moment. By your stubbornness in refusing to vote, are you not paving the way for the capitalist? Knowing that the moment the gate is thrown open they are through and the game is lost, \$237,000,000—that is the profits of the sugar trust the first 10 years of their existence, just a mere trifle, don't you know. I do not care what part of the union you go, you will find them here, there and everywhere. Combines meet you at every turn. Do you want the same thing here? Get in the collar, man, and even if you do not accomplish anything, you will have the satisfaction and consolation of bucking the government anyway. Vote for McGillivray—R. W.B.

ANOTHER EX-MINISTER.

"The adoption of a reciprocity measure would destroy Canada by killing that inter-relationship of East and West which the long struggle for success of the transportation systems has brought about. Reciprocity would wipe out Confederation."—M. J. Butler, former Deputy Minister and Chief Engineer of the Department of Railways and Canals in the Laurier Government.

Geo. N. Penchard lost some papers in a pocket book, which he can have by calling at the News office.

SIR JOHN MACDONALD AND RECIPROCITY

The question which you will be shortly called upon to determine resolves itself into this: "Shall we endanger our possession of the great heritage bequeathed to us by our forefathers and submit ourselves to direct taxation for the privilege of having our tariff fixed at Washington, with a prospect of ultimately becoming a portion of the American union?"—From Sir John Macdonald's address to the people of Canada, February 7, 1891.

We sell over 80 per cent of our home-grown stuff right in Canada, and 16 per cent in England. In ten years, we'll use nearly every pound of produce in supplying Canadians and their happy families. Why throw our markets open to the United States?

Your Vote may change the destiny of the whole British Empire. **VOTE FOR MCGILLIVRAY AND CLOSER RELATIONS WITH THE MOTHER COUNTRY.**

EVARTS STRONG FOR MCGILLIVRAY

A Farmer's Letter

Yesterday, comparatively speaking, out of the shadow of a doubt, was, and Everts was a Liberal stronghold, but still is, agitating the minds of all. Dr. Clark's meeting in the school house on Tuesday evening went to show it was no longer such, i.e., so far as reciprocity is concerned. The meeting was really intended as a rally for the party, but, in the absence of light, the house was very poorly lighted, and there was only the usual school equipage, in fact, no arrangements whatever was made for the coming of the great Messiah and his aide-de-camp, Mr. Weller, of Sylvan Lake. This, in my opinion, goes to show that the organizers had not much hope. They were the only speakers. The meeting was fairly well attended; I have seen better, and I may add, I have seen worse, but not much. Mr. Miller was the first to speak, and at the time I entered the house was pleading for Dr. Clark, excuse me, farmer Clark. He spoke of the different prices of cheese, butter and eggs on either side of the line in Ontario, but said little or nothing of Western Canada, and after thanking the audience, retired to his seat.

Farmer Clark then rose to speak. He was fairly well received, thanks to his aide-de-camp, who did most of the clapping. After a few remarks about the generous way in which he had been received by the town of Everts (this caused a general chuckle throughout the house) he made a dive for reciprocity. The audience, with one or two exceptions, seemed willing to give him a fair hearing, but the question of reciprocity, while

Stolypin Shot When at Theatre

Russian Premier Laid Low by Assassin's Bullets.

Kiev, Russia, Sept. 14.—The Russian premier, P. A. Stolypin, was attacked while attending a gala performance at the opera house. He was wounded twice by his assailant. One bullet entered his hand, while the other penetrated his body, grazing the liver and lodging in the spine. It is reported that the premier's wounds are mortal.

Emperor Nicholas was present in the theatre at the time.

The premier's assailant was arrested.

Leslieville

The fourth annual picnic of Bethel Union Church and Sunday School was held here on Sunday last, Sept. 14th. There was quite a crowd present, and everyone had a good time playing games, etc. The baseball game, local mixed teams, was quite exciting, the score being a tie, 14-14. Supper was served at 6 p.m. in the church, and all did justice to the good things so kindly provided by the ladies of the community. A concert in the evening finished one of the best picnics that has ever been held in this district.

Mr. Mellow and Mr. Jas. Black, from Bay of Quinte, Ont., are visiting Mr. and Mrs. C. A. Card.

The Ladies of Red Deer May Now Have Beautiful Hair

GAETZ-CORNETT DRUG & BOOK CO. HAVE THE ARTICLES AND GUARANTEE IT TO GROW HAIR, OR REFUND YOUR MONEY.

There was quite a good turnout at the dance which was held in the Leslieville school on Friday eve. 8th. Mr. Angus Martin took a trip to the Rocky Mountain House this week.

Mrs. Earle Pryon is recovering nicely after five weeks' illness.

Cities of Dead

Today Ottoman Empire Lies Prostrate in Terrible Grip of Cholera Scourge.

Constantinople, Sept. 14.—The whole Ottoman Empire is in the grip of the cholera and deaths will be numbered in the thousands, though the failure of any attempt to keep official records makes even an approximate estimate impossible.

In Northern Asia Minor, where the scourge first appeared, whole villages have been wiped out. In some districts the tax gatherer in making his rounds has not found a living person, such of the inhabitants as had survived the epidemic having fled to other parts.

The troops returning to the camps near here from Albania have been a prolific source of infection.

In most cases the sanitary measures taken are hopelessly inadequate and the disease is simply running its course.

The Ladies of Red Deer May Now Have Beautiful Hair

GAETZ-CORNETT DRUG & BOOK CO. HAVE THE ARTICLES AND GUARANTEE IT TO GROW HAIR, OR REFUND YOUR MONEY.

GAETZ-CORNETT DRUG & BOOK CO., backed up by the manufacturers of SALVIA, the Great Hair Grower, guarantee it to grow hair. The SALVIA destroys dandruff in ten days.

The roots of the hair are so nourished and fed that a new crop of hair springs up, to the amazement and delight of the user. The hair is made soft and fluffy, like all American preparations. SALVIA is a daintily perfumed. It is hard to find an actress who does not use SALVIA continually.

Ladies of society and influence use no other.

SALVIA is a non-sticky preparation, and is the ladies' favorite. A large, handsome bottle, 50c. The Seebell Drug Co., St. Catharines, Canadian distributors.

Volcanic Eruption

Peasants on Elma's Slopes Seek to Stem Tide of Lava by Pictures of the Saints.

Catania, Sept. 14.—The river of lava from Mount Elma still is sweeping all before it. Thousands of people have been driven from their homes.

Hoping to arrest the advance, the peasants erect before their vineyards and humble homes a cross of sticks, and place on top pictures of the Madonna and the saints, but these barriers of faith have not checked the flow.

Crowds of peasants gather to kneel and beat their breasts, calling for mercy and declaring that this must be a punishment for their sins. Monsignor Arista, bishop of Acireale, has gone to the front to encourage the faithful to conduct services, lead the processions and say benedictions to the people.

The house of Rampollo, a relative of Cardinal Rampollo, has been overwhelmed by the lava, which is expected soon to enter the Alcantara river. Three thousand years ago the lava from Mount Elma swept into the same river, the bed of which is now sixty feet deep.

The entire crest of Elma has been changed by the present disturbances, tagged elevations having appeared.

Six Months' Credit Auction Sale

Payable with instructions by Frank Staudinger, Esq., I will sell to the highest bidder, at his farm, the N.W. quarter of Sec. 10-30-2, W. 5th, being 4 miles west of Sylvan Lake, and 5 miles northeast of Everts, the whole of his goods, chattels and effects, on

SATURDAY, SEPTEMBER 30th, at twelve o'clock sharp.

CATTLE and POULTRY—Three first class milk cows, 2 fresh, and 1 fresh in December; 2 two-year-old steers; yearling steer; 2 yearling

heifers and two heifer calves; 1 good all-round pony; about 30 good-laying hens; 35 to 40 spring chickens.

Implements, Household Goods, etc.—No. 7 Massey-Harris mower and rake, nearly new; also a one-horse rake; log barn, 20 x 40, well built and easily moved; quite a number of building logs; 600 feet of 4 x 4 tamarack; 10 single harness; set of double driving harness; good strong democrat in good shape; 22 Savage rifle, new; Winchester rifle, 44-40 (never fired a shot); shot gun, 12-ga, with loading outfit; Smith & Wesson .32 revolver; any amount of carpenter's tools; carpenter's pencils; 6 pairs of German socks; shavers; forks; axes; grindstone; wash tubs; creamers, and goodness knows what—but all very useful articles; No. 9 cook stove, new last year; small heater; "Stratford" violin; iron bedstead, springs and mattress, all new last year; folding cot; 3 kitchen chairs; rocker; tables, knives, forks, spoons, flat irons; Oh, I nearly forgot! and 1 Arctina gramophone, with 20 records.

I have seen the goods mentioned above and can truly say, in this sale there is no puff whatever. Again, my client, Mr. Staudinger, is going away, and wants nothing left. You know the rest, and that's the great art of letter-writing!

Terms of Sale: All sales up to and including \$20, cash. Six months' time will be allowed on all sales over that amount by giving a joint bankable note at eight per cent. A discount of five per cent. for cash will be allowed on all sales over and above the \$20 mark.

DICK BLEAVY - Auctioneer, Everts Sept. 20, 26.

The Conservative Platform

"The Liberal-Conservative party gives its pledge to carry out the following policy if returned to power:

- (1) A thorough reorganization of the method by which public expenditure is supervised. The increase in what is known as ordinary controllable expenditure from \$21,500,000 in 1886 to nearly \$73,000,000 in 1911 as proof of extravagance beyond any possible denial.
- (2) The granting of their natural resources to the Prairie Provinces.
- (3) The construction of the Hudson Bay Railway and its operation by independent commission.
- (4) The control and operation by the States of the terminal elevators.
- (5) The necessary encouragement for establishing and carrying on the chilled meat industry.
- (6) The establishment of a permanent tariff commission.
- (7) The granting of substantial assistance towards the improvement of our public highways.
- (8) The extension of free rural mail delivery.
- (9) The extension of civil service reform.
- (10) The granting of liberal assistance to the provinces for the purpose of supplementing and extending the work of agricultural education and for the improvement of agriculture.

"And lastly, we pledge ourselves to a course of policy and administration which will maintain independent and unimpaired the control of our own affairs by the parliament of Canada; a policy which, while affording no just cause for complaint to any foreign nation, will find its highest ideal in the autonomous development of Canada as a nation within the British Empire."

Lacombe Woman Poisons Herself

Lacombe, Alta., Sept. 14.—Mrs. Ross McLeod, wife of the manager of Senator Talbot's farm, near here, committed suicide this morning by taking strychnine. She had been in poor health for some months, but

was recovering satisfactorily and her rash act was not anticipated by her husband or friends. She got up about six o'clock this morning, and after preparing food for her young child, took the fatal dose.

Her husband immediately telephoned to town for medical aid, and although a doctor was on the scene in 35 minutes after she had taken the poison, he could do nothing, and she died in less than an hour. The husband and family are prostrated over the tragic affair. Deceased was 32 years of age.

Lousana

Thus, Lewis of town paid a business trip to Innisfail last week.

R. B. Herbert and O. Willis spent the week end in town.

Miss Gertrude Storey left on Friday last for St. Joseph's convent, Red Deer. Miss Storey intends spending the winter term in the convent.

The dance in Brumpton's new store was a howling success. All present reported a grand time.

James Faris, Jr., has recovered from his late illness. Although a little weak, he is better than ever.

Ed. Fitzgerald has left his summer residence, which is a beautiful building overlooking the Quill lakes. Mr. Fitzgerald intends spending the winter in a more southern climate.

Mr. Fred Williamson spent Sunday as the guest of R. T. Ramsden.

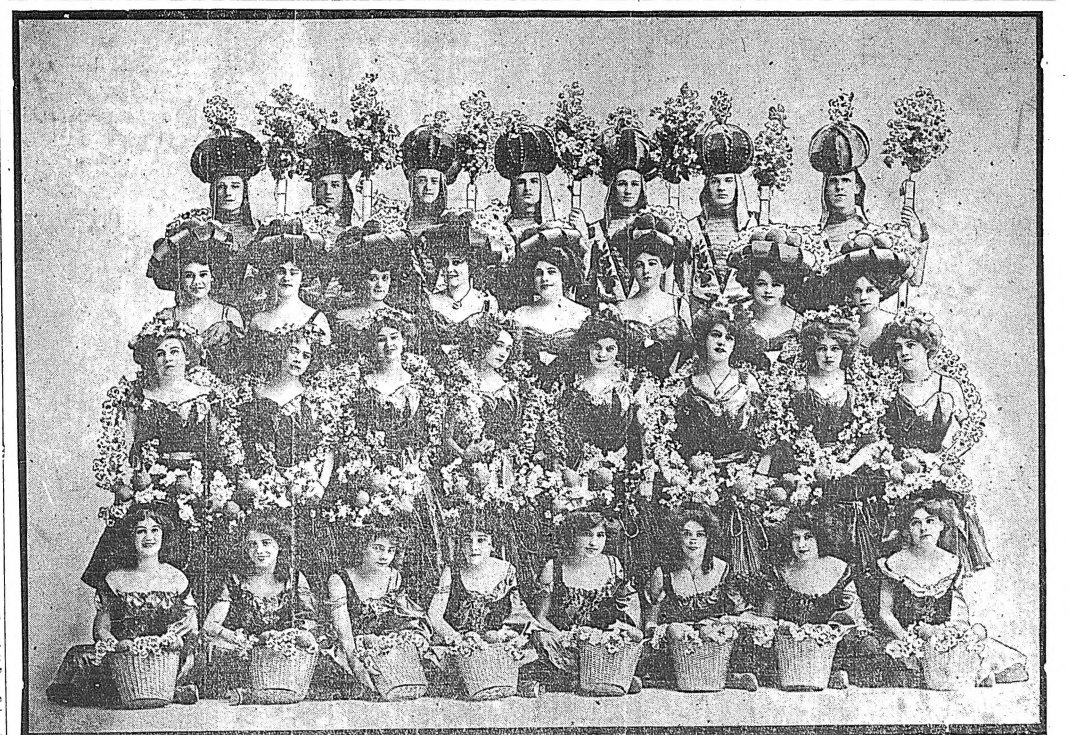

Mae C. Campbell paid a business trip to Red Deer last Saturday.

Judge Biggs, sole agent for Lousana townsite, was in town last week inspecting the work done on the streets.

Mr. and Mrs. E. J. Murray have gone to their ranch, where they intend spending the winter.

Miss Susie Lalley was the guest of Mrs. R. Murray for dinner on Sunday.

The sunshine and heat have come now and we can expect an Indian summer, which means, if the frosts keep away, a bumper crop.

WHERE SIR JOHN STOOD
ON RECIPROcity

Previous to the general election in 1891, which resulted in the utter rout of the Liberal party, Sir Wilfrid Laurier was a most persistent advocate of unrestricted reciprocity with the United States.

Sir John A. Macdonald appealed to the country in opposition to that policy as is shown beyond a doubt by the following extract from his manifesto:

"The adoption of this policy (unrestricted reciprocity) would involve among other things, discrimination against the mother country.

"It would, in my opinion, inevitably result in the annexation of this Dominion to the United States. The advocates of unrestricted reciprocity on this side of the line deny that it would have such an effect, though its friends in the United States urge, as the chief reason for its adoption, that unrestricted reciprocity would be the first step in the direction of political union.

"I recommend these issues to your determination, and to the judgment of the people of Canada, with an unclouded confidence that you will proclaim to the world your resolve to show yourselves not unworthy of the proud distinction that you enjoy of being numbered among the most dutiful and loyal subjects of our beloved Queen. As for myself, my course is clear. A British subject I was born—a British subject I will die."

The advocates of the Taft-Fielding pact, are urging the same reasons for its support that Sir John so strenuously opposed, and the result will be the same.

40 CENTS A YEAR.

The Government newspapers harp on the statement that reciprocity would save Canadian consumers \$3,500,000 in customs duties per annum.

How much of a saving would that be per capita?

Canada has a population of 8,000,000.

Therefore reciprocity would enrich every individual Canadian to the extent of 43 cents a year.

Is it worth while to make this immense saving at the risk of upsetting the most prosperous business fabric in the world?

One factory in each community on half time or closed (as American factories are today) would make the 43 cents look like the proverbial 30 cents.

Let us stick to the National Policy and keep Canadian factories running on full time. By so doing we shall maintain our industrial centres in a high state of prosperity and our farmers in the possession of a capacious and ever-expanding home market which takes 80 per cent. of their produce.

Toronto Telegram: The ministry of the interior was accepted by Hon. Frank Oliver in 1905 as a reward for representing a constituency that gladly condoned Mr. Oliver's recency to his professional attention for public ownership, public rights, provincial rights and national schools.

When Hon. Frank Oliver finally put his neck in the yoke of Laurierism he forsook every ideal of his independent manhood and became the minister of a government dominated by the Quebec bigotry that made war on Fred Haultain and established clerical schools in Alberta and Saskatchewan. An admirer who watched the career of Mr. Oliver culminate in the solvency of his purest ambitions and the bankruptcy of his noblest ideals was asked to justify Mr. Oliver, and could only say, with a sigh:

"Oh, well, Frank gave principle a good fair chance. Principle didn't do anything for him, and Frank's trying politics."

COUNCIL MEETING

The regular meeting of the Town Council was held on Thursday evening last with his Worship Mayor Welliver in the chair and Councillors Gaetz, Caracallen, Malcolm, Alford, and Galbraith in attendance.

CORRESPONDENCE

Geo. Rothnie, chief of Police of Kamloops, drew the attention of the Council to the fact that late King Edward had instituted a medal for meritorious work and bravery throughout the empire. Chief Ball should be awarded this medal, as he had faced a desperate criminal, unarmed, and, after being shot through the body, still attempted to capture the man. The secretary-treasurer was instructed to take the matter up with the British government.

The Provincial Medical Health Officer asked for amount of costs to Town for burying a suicide last year named Henry. Filed.

The C. N. R. people wrote asking for a meeting Tuesday afternoon to approve plans for the line through town. The Council will meet them Tuesday afternoon.

The Public Works Department, Ottawa, acknowledged account for cement sidewalk in front of Dominion Lands Office, and stating it had been submitted to chief architect. Filed.

General Supplies Limited, Calgary, notified Council steel pipe had been shipped 14th of August.

COMMISSIONERS' REPORT.

We recommend that the following rebates and refunds be allowed:

Arrears of taxes uncollectable: W. P. Coultas, \$4.94; Sam Lee, \$7.75; Chas. Lyman, \$37.

Current taxes house not on property: R. C. Brumpton, \$8.00.

Water frontage tax collected when rates were paid: Dr. George, \$5.00; Mrs. Dutton, \$2.50.

We recommend that Chas. Monette be remitted a fine of \$4.80, which was levied for a charge of leaving a wagon standing on Gaetz Ave. over night. We are satisfied, after investigation, that a summons should not have been issued.

We have placed insurance of \$1200 on the buildings in the exhibition property. The insurance placed by the Exhibition Co. expired on 4th inst.

The drinking fountain has been set up on Ross St., opposite the entrance to the Dominion Land Office. We are having a concrete apron built in front of it provided with drainage to the sewer so that no nuisance will be created by the use of it.

We would respectfully recommend to the citizens that they immediately lay in a stock of coal for the winter in view of the certain coal famine in sight. We find from the dealers that they can supply plenty of coal in the near future, but as soon as cold weather sets in there will be a large outside demand for it, and the dealers may not then be able to supply the local demand.

We have received the money for the debentures sold some time ago to the Dominion Securities Corporation of Toronto.

On account of the rainfall this summer, which hampered their work, the sidewalk contractors inform us that they will not be able to lay any more walks beyond what is specified in the contract. This will necessitate the leaving until next year of one block on 1st St. S.E. and one block on 1st Ave. S.E.

We submit herewith position for the extension of the water main and sewer on 1st St. S.E. from D.G. Horn and others. We recommend that this be laid this fall, if there is time after the other work is completed.

Construction work has been progressing better the last few weeks,

but we are still hampered through lack of sufficient labour.

The sewer to the hospital has been completed, and two blocks on 2nd Ave. S.E. will be completed by next Monday. We have decided, subject to your approval, to have the additional block on this street let for the present, as other work is more needed.

The duplicate watermain from the power house to Gaetz Ave. should be completed early in the week. We have commenced work on the septic tank, and will rush this work as fast as possible.

The steel pipe for the remaining water extensions should have been delivered before now, but we have had no word of it, though we have been urging the Calgary agents to have it traced and rushed along. As soon as it arrives we will commence laying it and get as much laid as possible before winter.

The grading of 1st St. S.W. has been completed and we are having Gaetz Ave. N. brought to grade immediately. We have secured about enough earth near there to make the necessary fill and will have the surface gravelled after the earth has been packed firmly.

It will be necessary to build an additional manhole at the westerly end of 5th St. N.W. to provide proper flushing of the sewer there. A hydrant has been installed opposite the power house on that street which will provide water for flushing the sewer and better fire protection for the power house, creamery and Town store yard.

Mr. S. J. Ainton, inspector of the Fire Underwriters' Association, inspected and tested the waterworks and fire department. Everything was satisfactory.

Your committee to meet the Western General Electric Co. re. purchase of their plant met with our solicitor and discussed preliminary matters in connection with the question. The absence of W. A. Moore will delay the matter for the present.

Mr. Iverson, Parks Superintendent of Calgary, will be here Monday next to discuss park improvements. Any Councillor interested in this should be on hand that morning to meet him.

Owing to the warm weather it was necessary to stop draymen dumping manure in the old creek bed. This has been covered with earth. This winter it will be necessary to consider the question of disposing of garbage, manure, etc., in a more satisfactory manner.

H. L. Gaetz requested us to issue a transfer to the Militia Dept. of the two lots on 3rd St. S.E. that the Council several years ago agreed to give for an armory site. This will require a by-law authorizing us to execute a transfer. This will be prepared for the next meeting if it is your wish.

On June 3rd we instructed the Western General Electric Company to place the additional street lights that were decided on by the Council. We have repeatedly taken up the matter of the delay with them, and they have promised to have them placed immediately. This promise has been made several times but has not been carried out. The additional fittings in the pump house asked for by them have also been installed and they have been asked for the certificates that the pump and fittings have been installed to their satisfaction, but no reply has been given to the request.

We submit herewith report of the John Galt Engineering Co. on Tugston Street Lights. Pending the negotiations with the Western General Co. for the purchase of their

Council Meeting

(Continued from page 4).
plant we recommend that no action be taken at present to go into the question further.

We have not yet received a favorable report from J. B. Clarke, K.C., Toronto, on our money by-laws submitted to him. He requires some additional information and declarations.

We submit herewith list of accounts for authorization to pay.

We have been discussing the question of site for a stand pipe with J. J. Gaetz and hope to have a complete report by next meeting.

Some discussion took place on the bad smell from manure dumped in the creek bottom at the south end of the town.

The Mayor and Councillor Alford contended the smell was very bad some times, and the Council must remedy it.

Councillor Gaetz said we have to have some place to dump manure and refuse, and thought the smell was rather an imagination by the people in the south end. The most economical way to dispose of our refuse was to fill in those holes and cover with earth.

Councillor Alford did not favor granting the lots mentioned to the Government for an armory. They were much more valuable now than they were, and he did not think much of promises on the eve of a general election. The government purchased property other places; they could do it here. In the eastern provinces the government spent hundreds of thousands of dollars for just such land for political purposes when they were not needed, and he didn't think we were called on to give this land.

Councillor Malcolm wondered if a clause could not be inserted that the lots would revert to town in two years if the armory was not built.

Councillor Alford said we had a similar thing happen for emigrant sheds years ago, and no emigrant shed was yet built.

Councillor Gaetz said the case was different.

The Mayor said he thought the matter would have come in better grace after the election. He did not like it coming in now. He said Dr. Clark had been working for an armory, and we would get it, but the doctor thought it might be better to lay the matter over until after the election.

Councillor Gaetz said the Department of Militia had promised us an armory, and he felt sure it would be built.

The report was adopted.

Councillor Gaetz, seconded by Councillor Carscadden, moved that the request of the Militia Department, through Major H. L. Gaetz, for the transfer of the lots promised by the

Town to the Government for the erection of a drill hall and armory, be complied with; and that the solicitor be instructed to prepare a by-law authorizing the transfer.

Carried, Councillor Alford voting against it.

ACCOUNTS.
The following accounts were passed:

H. Gilbert, \$50.05, Wage sheet, August, 2,000.22, Canadian Pacific Ry. 250.46, Canadian Pacific Ry. 100.45, J. Erland 12.37, Merchants Bank 518.00, Western General Electric Co. 17.22, J. McEwan 2.00, Red Deer Advocate 186.25.

Councillor Alford asked for leave of absence for three months, as he intended leaving for the Pacific coast in a few days.

On motion of Councillors Galbraith and Carscadden, leave of absence was granted for three months, and the best wishes of the Council were extended Councillor Alford for a good time while away.

Council adjourned at 9.20 o'clock.

WANTED.—A good general servant. Apply to Mrs. R. B. Welliver, 24 Fourth Street North.

Red Deer, Sept. 13.

Cod Liver Oil With the Oil Taken Out

A Triumph for Chemical Science and Pharmaceutical Skill

Oil from the liver of the cod-fish has been used as a preventative of disease and a restorative for ages.

For a long time it has been the general opinion that the medicinal value of Cod Liver Oil was the greasy oily part of it—its only drawback being the unpalatable, fishy taste of the oil.

From the first experts have been trying to find means to make it more palatable. They used to "cut" it with whiskey—take it in wine—flavor it with lemon juice—anything to get away from that abominable fishy taste and smell.

Lots of people still take it in Emulsion form, which is nothing more than "churned" oil—broken up—but is greasy, oily and a strain on the digestion.

Doctors used to think it was the oil itself that built up the system—others were slow to find out that the oil was distinct drawback to the medicinal principles contained in it.

Crude oil is quite indigestible, at will, in time, put the strongest stomach out of order.

A way has now been discovered to draw away the grease and the smell, yet retain all the medicinal properties of the liver. This is done by removing the fish oil from the liver. The liver pulp is then reduced to the form of an extract like beef extract.

Nyal's Cod Liver Compound is simply this liver extract combined with an extract of malt and healing wild cherry to also contain the true hypophosphites. This combination makes Nyal's Cod Liver Compound a delicious tonic—builds up the system, and makes you strong.

Take it when you feel yourself losing your grip. It's a pleasure to take—even the children like it.

Get a bottle of Nyal's and ward off disease. \$1.00 for a large bottle. Your druggist will cheerfully recommend it because he knows all about it.

The HOME MARKET

The Loss of Reciprocity in 1896 Resulted in the Creation of Profitable Industries for Canada

By JOHN V. BOURNE.

It is true that both political parties in Canada formerly desired a measure of reciprocity with the United States. But that was when trade generally was small and depressed, and before the Imperial Conference in London by Sir Wilfrid Laurier, who said:

"There was a time when we were wanting reciprocity with the United States, but our efforts were put aside."

It is now a time when we are on guard.

GREAT VICTORY FOR CONSERVATIVE PARTY

Laurier Sustains Most Disastrous History of Canada

Points About the Deal

ONE OLD CONDITIONS HAVE PASSED

The Four Reasons Which Produced Continentalists Have Died Natural Deaths

By JOHN V. BOURNE.

The Union of population from Canada to the United States was the fundamental reason for such organizations as the Continental Association, of which the late Goldwin Smith was president. Mr. Smith, in a letter accepting the presidency, expressed his belief that the Continentalists did not see that the exodus to the United States would continue to increase, because the unoccupied lands of the Republic would fill up, and Canada's turn would come.

In the first place the Continentalists did not see that the exodus to the United States would continue to increase, because the unoccupied lands of the Republic would fill up, and Canada's turn would come.

These two things together inevitably prevented the Continentalists from having a great vision of the future of Canada. They thought she would always be commercially dependent on the United States. They saw the Lynch-pin of an Empire more spacious and more powerful than the United States could ever be. They said "Go to, let us make the most of our neighbor." They did not know that "Go to, let us make the most of ourselves."

There will also be a stack of good hay, a stack of green feed, potatoes and other vegetables.

Turners: All sums of \$20 and under cash. Over that amount an credit of 9 months will be given purchaser furnishing an approved joint bankable note with interest at 8 per cent. from date of sale. A discount of 5 per cent. will be given on all sums over \$20 for cash.

People going east should take last turn on right after passing this side post office. Guide notices will be posted on trails. Come early to insure prompt start as many have a long distance to travel.

Sale at 10 a.m. prompt. Lunch at noon.

POINTS ABOUT THE DEAL

THREE SAID "GOOD-BYE RECIPROCITY"

Sir Wilfrid Laurier's Justification of the Defeat He Sustained in 1891

By JOHN V. BOURNE.

The starting of industries, the building of a railway across an empty continent, left Canada in a condition of stagnation. The lack of faith, which the Continental cry was a model expression, means a lack of work. Few of the millions of people who desired to break the Old World learned of Canada. The population continued stationary. Progress was painfully slow.

But, in due time, the movement of people to Canada began. It was presently accompanied by a movement of capital, until, at last, everybody saw that the hour of Canada had come. The final proof of it was vouchsafed when the exodus from Canada to the United States was more than balanced by an exodus from the United States to Canada.

Right up to the time that Canada became known to the people of Europe there was a hankering after Reciprocity. In 1891 a general election was fought on the question, and the advanced Reciprocityists were beaten. The issue was destined to keep the country in the "hell-box" for more than twenty years.

The Liberal party, in pursuance of a policy which was followed by Sir Wilfrid Laurier in 1897, and was repelled. The immigration tide was turned, and the country was still. At that very time the instinct which had turned aside from the Reciprocityists in 1891 was re-awakened in itself—this time in the unfamiliar guise of a Liberal Government—and in 1905 the Liberal Government was elected. It had stood for many years on the Canadian Statute Book was repealed. The repeal was happily effected by the Imperial Conference in London by Sir Wilfrid Laurier, who said:

"There was a time when we were wanting reciprocity with the United States, but our efforts were put aside."

It is now a time when we are on guard.

POINTS ABOUT THE DEAL

SIX "LET LAURIER FINISH HIS WORK"

The Grand Trunk Pacific Scheme is a Direct Result of the Abandonment of Reciprocity

By JOHN V. BOURNE.

Always when a country adopts a new and definite line of policy, some special, tremendous work is undertaken, which embodies that policy and becomes its monument. That is as inevitable as that day should follow night. It may be undertaken by members of the community, whose efforts may coalesce in several enterprises, or the Government itself may launch some scheme in the name of the country.

Canada furnishes two outstanding examples of this. The logical outcome of Confederation was an ocean-to-ocean railway. The logical necessity of an ocean-to-ocean Canada was an ocean-to-ocean railway. The Canadian Pacific had to be. It was first undertaken by the Government, and was then committed to private hands, with Government assistance.

When the abandonment of the Reciprocity idea was so quickly succeeded by a vigorous expansion of business, as Sir Wilfrid Laurier said, "We now put all our eggs in the British trade basket." The engine designed to establish that dependence—based on National Transcontinental Railway—which is to be operated by the Grand Trunk Pacific Railway, to which the backing of the public treasury was liberally given.

The general election of 1904 was fought on the wisdom of the Grand Trunk Pacific and National Transcontinental bargain, which was the Government's method of carrying to its logical end the repeal of the Reciprocity offer, and of implementing the Premier's announcement to the Imperial Conference, that Canada was devoted to the East-End-West trade.

The election was won by the Government, and the railway was begun. In 1908 the Government went to the country again—on the wisdom of the bargain, but on the necessity of completing a job. "Let Laurier finish his work," was the victorious slogan.

The work is not finished. Another in competition with it has been begun.

POINTS ABOUT THE DEAL

SEVEN BEWARE THE COMPETITOR

Sir Wilfrid Said, "Heaven Grant Thierations when purchased It Be Not Already Too Late"

By JOHN V. BOURNE.

A great deal has been said for and against the contention that in making a reciprocal trade treaty without consulting the people the Dominion Government reversed its established policy.

Those who say the Liberal party was always committed to reciprocity, forget that the transcendent policy of reciprocity was based on the abandonment of reciprocity, and that the general election of 1904 was won by the Government, was the strongest endorsement of the abandonment of reciprocity could give; for it authorized the Government to spend large sums of money to make new channels of trade, and to trade which reciprocity would have rendered unnecessary.

Listen to the Prime Minister justifying the great scheme:

"A railway to extend from the shores of the Pacific Ocean to the shores of the Atlantic Ocean, and to be, every inch of it, a Canadian rail, is a national well as well as a national necessity."

Graduate Canadian and Empire College of Optics
 ISSUES OF MARRIAGE

POINTS ABOUT THE DEAL

EIGHT CANADA'S INDEPENDENCE

The Finance Minister Would Have Built a Third Transcontinental to Emphasize It

By JOHN V. BOURNE.

Though the Prime Minister always speaks for the Government, great importance attaches to the declarations of his Ministers; and, where big expenditures are concerned, especially to the Minister of Finance, Mr. Fielding.

In turning from the United States Mr. Fielding was as thoroughgoing as his chief. He told the House of Commons:

"It is desirable that we should give our American brethren to understand that our independence is not a mere word. It is a reality. It is a fact. It is a principle. It is a policy. It is a program. It is a goal. It is a dream. It is a vision. It is a hope. It is a faith. It is a love. It is a life. It is a death. It is a resurrection. It is a glory. It is a triumph. It is a victory. It is a conquest. It is a dominion. It is a kingdom. It is a empire. It is a world. It is a universe. It is a God. It is a Christ. It is a Holy Spirit. It is a Church. It is a Sacrament. It is a Mystery. It is a Miracle. It is a Sign. It is a Wonder. It is a Power. It is a Might. It is a Strength. It is a Force. It is a Energy. It is a Vigor. It is a Activity. It is a Motion.
